Description:

We are looking for a Solutions architect highly specialized in web-based technologies to help enhance our business productivity. This role requires someone with exceptional technical skills to join a driven, motivated, and skilled Architecture team, who will be supporting presales and delivery efforts. This combined with a large project pipeline, will allow someone with the right skills to have a career which mixes business and technical expertise. The environment is fast paced and allows huge exposure to the latest technologies, coupled with the ability to be problem-solving in the planning and designing new client requirements.

Core duties and responsibilities include:

- Own technical solution architecture throughout the whole project lifecycle;
- Gathering requirements and defining project scope with Devtech sales team;
- Engaged on the project research and technical estimates;
- Create architectural approach for software design and implementation to guide the development team;
- Define all aspects of development from appropriate technology and workflow by company technical standards;
- Communicate successfully all concepts and guidelines to developers;
- Managing technical project communication;
- Oversee progress of development team to ensure consistency with initial design;
- Provide technical guidance and coaching to developers and engineers;
- Ensure software meets all requirements of quality, security extensibility aspect.

Desirable skills:

- 5+ years of industry experience with proven technical & development background;
- Experience in software development and coding in various programming languages (C#, PHP, Java);
- Great knowledge of software and application design and architecture;
- Good understanding of software development lifecycle;
- Hands-on experience with both relational and non-relational databases;
- Hands-on experience with service oriented and event driven architectures;
- Strong verbal and written communication skills in English;

- Strong analytical thinking, problem-solving, and collaboration skills;
- Previous experience with AWS, Azure, Office365 is a plus.

What we offer:

- Secure and stable job, competitive salary and benefits package;
- Opportunity for career development in the very cutting edge of today's IT;
- Attending various IT conferences in the region and abroad;
- Private Health Insurance;
- Free Business English lessons;
- Private Health Insurance
- Flexible working hours
- Open, informal and fun atmosphere;
- Team Building activities;
- Stock options and profit sharing;
- Remote work options;
- Snacks, drinks, fresh fruit and an occasional beer;
- Chill out lounge with sofa, lazy bags, 42" TV, Xbox 360, PlayStation 4, table football and more.

We strive to attract exceptional people who have "that extra something" and really enjoy what they do.
