

enjoy.ing is a Swiss based engineering company, with headquarters in Zurich, gathering internationally experienced teams of engineers in Belgrade and Niš.

## We enjoy software engineering! Do you?

If you are looking for creative and challenging international projects, excellent working conditions, training and development opportunities, pure professionalism with a handful of positive spirit and...

You are a team player with open and friendly personality and would like to work as:

### Senior Frontend Developer

#### You will:

- Develop innovative software solutions for a prominent Swiss bank
- Work on the project from the scratch
- Develop new user-facing features
- Build reusable code for future use
- Ensure the technical feasibility of UI/UX designs
- Help the team create a beautiful, responsive and accessible UI
- Develop new software that enables the launch of new products, functionality and services with technologies ranging from HTML5, CSS3, and JavaScript
- Collaborate with other team members and stakeholders

#### Our offer:

- A chance to be part of casual but highly professional international environment
- Competitive compensation depending on experience and skills
- Private pension and medical insurance
- Professional and soft skills trainings and education
- Sports, team buildings, conferences and events
- Modern and cozy offices in New Belgrade and Niš, cakes and fresh fruits...
- Possibility to travel abroad
- Work – life balanced schedule
- Respect and support to your professional, family and personal goals

#### You have:

- 5+ years' experience delivering web applications
- In-depth knowledge of HTML, CSS and JavaScript frameworks and patterns
- 2+ years of experience with any of JavaScript frameworks like AngularJS, ReactJS, jQuery, Node.JS
- Expert skills in JavaScript and JQuery with server side technology
- Preferred exposure to web development concepts and processes, including: MVC, OOP, RESTful Web Services, Agile Scrum, dependency management, unit testing, e2e testing
- Hands-on experience implementing automated testing for JavaScript technologies, for both unit tests and integration tests
- Demonstrated interest in finance and business
- Eye for user-focused design and UI/UX
- Strong understanding of performance optimization for web-based applications
- Ability to work well within teams
- University degree in computer sciences (or equivalent)
- Good spoken and written English skills

Working location: **Belgrade**
