

IT IS ALL ABOUT ZEROS AND ONES.

BE THE ONE!

SOFTWARE ENGINEER

Eager to learn new technologies, best software practices and work in a stimulating and supportive work environment? For our Serbian based software engineering company, we are looking for passionate and creative new team members to join our experienced team.

See who we are on our Facebook profile (www.facebook.com/NultienSerbia/).

WE OFFER:

- Challenging projects for international clients, utilizing cutting edge technologies
- Competitive salary and benefits: paid lunch, private health insurance, employee referral bonuses, teambuilding events, in-office language classes...
- Continuous knowledge improvement through various trainings
- Flexible working hours, make your own schedule and choice of working place (home or office)
- Dynamic, enjoyable and ergonomic work environment (e.g. height adjustable standing desks)
- Attractive office space on top location in New Belgrade
- Possibility for international travel

WE WORK ON:

Modern web and mobile applications for business clients, utilizing the Scrum development process. Do you recognize yourself contributing in some of our primary technologies of choice:

- C#, MVC, WebAPI, Xamarin
- AngularJS, TypeScript, JavaScript, HTML5, CSS3
- Windows Azure
- Continuous Integration with Automated Testing

WHY US?

- You will be able to make use of the experience of roughly 200 colleagues in the enterprise that Nul Tien (www.nultien.rs) is part of.
- You will join our multidisciplinary teams implementing and integrating software for a variety of international clients from a diversified range of business domains: government & ministries, insurance companies, railways, publishers, breweries, traffic, ...
- Your opinion will count in our collaborative culture, where developers share ideas, research and propose different technologies to solve complex problems.

Grab this opportunity to JOIN US by sending your CV to hr@nultien.rs !
