

We are looking for
Front End Developer
Job location: Kragujevac

As a valuable member of our team, you will be working closely with a team of highly skilled developers, on projects different scales.

You will:

- Work on templates for customized web applications based on PHP framework
- Craft wonderful interfaces from existing designs
- Build Javascript functionalities that will improve user interaction

If you have:

- Minimum of 2 years of professional web development experience
- High proficiency with HTML5/CSS3 and table-less implementation
- Experience with Javascript. JQuery experience is a plus
- Experience using Adobe Photoshop
- Experience with source control repositories (GIT) is a plus
- Ability to work well within teams
- Good knowledge of English, written and spoken

We offer:

- Top of the class equipment (lightning fast machines powered by SSD, latest Intel processors...)
- Conventions and conferences in and out of country
- Flexible working hours
- Employee Gatherings and Team Building Activities
- and much more ...

If you are interested in becoming a part of our dynamic team, please send your resume to hr@quantox.com. Only shortlisted candidates will be contacted.
